WORLD HAPPENINGS
BRIEFLY TOLD

Calgary's nine month revenue report shows collections \$146,000 above the same period last year.

More than \$9,000,000 is to be spent on harbor development at Canton, China.

About 242 divorce applications have been filed at Osgoode Hall, of which 183 were filed by wives.

An increase in the value of meat and meat products exported from Canada for September is shown by the Dominion Bureau of Statistics.

Some 400 persons have been given employment in New York selling telephone service and extensions on commission.

Not a drop of rain has fallen in the Lorca district, near Murcia, Spain, for over seven years, and the peasants are imploring the Government's help.

Estimates that the Australian wheat crop will be 20 per cent. smaller than last year have been received at the agriculture department, Washington.

Increased activity is reported in many Lancashire and Yorkshire cotton mills as a result of an influx of orders since the gold standard was suspended.

The New York American, quoting "an informed source," says the late Senator Dwight W. Morrow, of New Jersey, left an estate of "close to \$200,000."

According to the official census taken in June, Ottawa has a population of 124,988, or an increase of 15.90 per cent. in ten years. The 1921 census gave Ottawa a population of 107,848.

A special cable from London to the New York Times announces the death in Bournemouth, England, of General Sir Reginald Hart, 83.

General Hart was the oldest holder of the Victoria Cross, which was awarded him in the Afghan war of 1879.

Record Production Of Butter

In Nine Months Production In Saskatchewan Reached 16,717,911 Pounds

Creamery butter production in Saskatchewan is running 4,000,000 pounds ahead of last year, according to records of the Dairy Branch of the Provincial Department of Agriculture.

Production during September, 1931, aggregated 1,797,476 pounds as compared with 1,287,648 for September, 1930, representing an increase of 509,827 pounds or 39.5 per cent.

The output from January 1 to September 30, 1931, reached the impressive total of 16,717,911 pounds, as compared with 11,564,576 pounds for the corresponding period of 1930. The increase of 4,153,335 pounds, represents a production 35.9 per cent. higher than that of last year.

Separate Grade For
Garnet Wheat Asked

May Be Excluded From Contract Grades Of Northern Classes

Garnet wheat will be excluded from the contract grades of the northern classes after July 31, 1932, if a resolution passed unanimously by the Western Grain Standards Board is approved and the Canadian Grain Act duly amended at the next session of parliament.

The resolution urged that it be graded as a separate variety of wheat in grades to be known as number one, two and three Garnet, with anything which falls to meet the requirements of these grades being included in the lower grades of the red spring wheat.

Men, Not Gold

Arthur Brisbane, a United States editorial writer, comments on the flying performances of the British Lieutenant Stainforth who made a mark of 386 miles per hour, and says: "A nation that can make such airplanes and find men to run them ought not to be discouraged about a few million pounds sterling one way or the other. It is what men have in their brains that makes a country."

Aviators flying at night through the high-walled gorge of the Columbia River, are now guided for 50 miles by red and green beacon lights.

Wife—"John, I'm so disappointed." John—"What's the matter, now, dear?"

Wife—"Here it is your birthday, and you forgot to bring me home a present to give to you."

"My mother is kind, she promised me a doll yesterday and gave it to me today."

"That is nothing—my mother promised me a little brother and today she gave me three."—Il Traviata, Home.

W. N. U. 1913

Worry and Fear

Factors That Help To Shorten the Span Of Life

The way that hate, fear, worry and jealousy have helped to choke off at 58 years man's hitherto rapidly increasing span of life, was described to the American College of Surgeons in New York.

The bank president worrying over business, the criminal suddenly stricken with fear, and the mother watching her sick child all were pictured as doing the same injury to their health.

This increase to 58 as the average time every adult may expect to live was discussed by two internationally known physicians, Dr. George W. Crile of the Cleveland Clinic, and Dr. Charles H. Mayo, of the Mayo Clinic of Rochester, Minn.

Dr. Crile told the medical story of ravages of emotions of modern civilization. Dr. Mayo sketched remedies for ill health, which included newspapers as "the greatest educating, thought-moulding enterprise in the world."

By Adriette

CROSS-OVER LINES TEND TO
MAKE THE FIGURE APPEAR
SLIM

You'll love this silk crepe shantung in powder blue and white. It's so extremely serviceable. Its moulded lines with wrapped arrangement through the bodice makes it especially desirable for the woman inclined to overweight. The surplice shawl collar of plain white crepe does its bit toward minimizing breadth.

It's simplicity itself to copy it! The bodice cuts in one until it joins the skirt.

It's a splendid opportunity! Choose now! You'll be delighted with this smart model.

Style No. 931 may be had in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44 and 46 inches bust. Size 36 requires 3 1/2 yards of 38-inch material with 3/4 yard of 35-inch contrasting. Charming for this model for town or resort are the pastel flat crepe silks, Chinese silk damask, linen and shirting fabrics.

Pattern price 25 cents in stamps or coin (coin preferred). Wrap coin carefully.

Ex-Kaiser Leads Active Life

Occupies Time Taking Several Forms Of Physical Exercise

Ex-Kaiser Wilhelm is not the old, worn-out man that many people think him to be. Quite on the contrary, he leads a very active life, according to the Dorn correspondent of the Berlin Tempo. His household consists of some sixty persons, and he continually receives visits from members of the former royal family. The ex-kaiser relies to a large extent on physical exercise to occupy his time. He arises at 6 a.m. and often takes a brisk walk before morning chapel at 8. Breakfast is at 9. During the remaining part of the morning he either plays tennis, indulges in wood chopping or again strolls through the woods adjoining the palace. He is accompanied on his walks by his pack of dogs—three dachshunds, a Russian wolfhound and a German shepherd dog. He has a completely cleaned out his own park of fallen and dead wood that is forced to rely on his neighbors to "give" him work to do.

BRITISH "BOBBIE" STRIVES FOR LAW AND ORDER

This lively scrimmage is far more reminiscent of what is expected of Red Russia than of usually staid, peaceful London, but such scenes as this battle between a London policeman and several marchers in an unemployment parade, have become frequent in the British capital as demonstrations increase over prevailing economic conditions. The policeman was trying to tear a red banner from the hands of the struggling marchers as this picture was snapped in exclusive Oxford Street, London, England.

Wilkins Has Plans

For Another Attempt

Hopes To Make Second Submarine Trip To Arctic

Sir Hubert Wilkins, Arctic explorer, returned to New York on the North German Lloyd liner "Bremer" from his partly successful attempt to travel under the ice to the North Pole. He is to lecture about his expedition and hopes later to return to Spitzbergen and make another attempt in a new submarine, constructed and equipped for the task.

A great deal of material had been collected by the scientists on board the "Nautilus," Sir Hubert said, which he felt sure would prove very valuable to ocean orthography. The reports are being prepared at Bergen by three scientists, an American, a German and a Norwegian.

The submarine went down 500 feet, Sir Hubert said, and travelled under ice 15 feet thick. The craft weighed 2,080 tons and forced her way back to the surface at a place where the ice was only 8 inches thick. In doing this, the diving rudder was torn off.

The party found sea valleys north of Spitzbergen that were 12,000 feet deep, while the ridges were only 2, 400 feet from the surface of the sea. Four different water temperatures were found—surface cold, just below, also cold, then warm, and at the bottom it was extremely warm, the explorer said. Mud brought up from the bottom was found to be dry and crumbly. The loss of the diving rudder prevented the expedition's plans from being carried out fully.

Growth Of Swedish Town

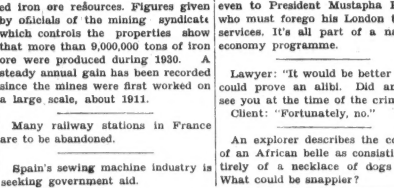

Modern City Was Arctic Wilderness Twenty Years Ago

A little more than twenty years ago the thriving town of Kiruna, Sweden, was nothing more than Arctic wilderness, the abode of wandering Lapps and herds of reindeer. Today it is a bustling community of 11,000 inhabitants which serves as the commercial center of a vast iron industry with a history as romantic as the most adventurous pioneering exploits of North America. Swedish engineering skill has placed in the center of polar wastes a small modern city with as many up-to-date mechanical comforts as the most fastidious American city dweller could wish for.

In the industrial world, Kiruna has become known for its almost unlimited iron ore resources. Figures given by officials of the mining syndicate which controls the properties show that more than 9,000,000 tons of iron ore were produced during 1930. A steady annual gain has been recorded since the mines were first worked on a large scale, about 1911.

Many railway stations in France are to be abandoned.

Spain's sewing machine industry is seeking government aid.

The woman of Turkey's officialdom must turn their eyes from the mode of Paris and buy their gowns at home, the cabinet has decided. The edict against foreign garments applies even to President Mustafa Kemal who must forego his London tailor's services. It's all part of a national economy programme.

Lawyer: "It would be better if you could prove an alibi. Did anybody see you at the time of the crime?" Client: "Fortunately, no."

An explorer describes the costume of an African belle as consisting entirely of a necklace of dogs teeth. What could be snappier?

"Oh, John, dear, look what you've done now!"—The London Opinion.

Canadian Justice

Experience Of United States Tourist Is Good Illustration

Many legends are circulating on this side of the border regarding the severity of Canadian law enforcement. One of the boys in this building had an experience that illustrates one phase of the Canadian viewpoint on courts and justice.

He was nailed going at a mild rate near Hamilton and was required to put up \$20 to guarantee his Monday morning appearance before a magistrate. He was so convinced of the wrongness of the rap he appeared punctually in the courtroom. But the judge was not present that morning. After a wait of about half an hour an attendant informed the tourist the magistrate was detained in another town. So he went his way, leaving behind him the double awbuck, of course.

Three days later he received a very courteous note from the judge, enclosing a check for \$20.

"You were notified to appear before me Monday morning, and I am informed that you were present. I was unavoidably detained, and here with return your deposit and beg you to accept my apologies for the inconvenience, etc., etc."

Would that happen to a traffic defendant in the States?

China Becoming Modern

Western Mode Of Living Is Being Gradually Adopted

That China is rapidly narrowing the gap of centuries between its antiquated mode of living and modern civilization has been evidenced in many ways. The Chinese student is avid for Occidental knowledge and may often be seen mingling with enthusiastic graduates at Columbia and other universities. The Oriental nation has realized the healthful benefits of wheat at a most opportune time and it now becoming a new consumptive market for 15,000,000 bushels of surplus wheat from the Federal Farm Board's stocks, which it recently purchased on a long-term credit basis.

Nor is the health of the modern Chinese baby being neglected. The best milk and butter that registered Ayralthe cows can produce will attend to this necessity. For the Hong Kong Dairy and Cold Storage Company has placed an order with the British Columbia Ayralthe Breeders' Association for 50 head.

Common Currency Policy

Nations Within the British Empire Should Adopt Single Standard

As the first step toward an international currency conference the London Observer suggests that nations within the British Empire should endeavor to elaborate a common currency policy.

The newspapers said no more important step in the direction of empire unity could be conceived than an agreement bringing into existence a common currency with a single standard throughout the empire. The British Empire, the newspaper adds, would then stand solid as a rock in the midst of a world struggling with diverse currencies.

Extend Closed Season

Beaver Cannot Be Trapped In Saskatchewan Until 1934

By an order-in-council passed on October 16, the closed season for beaver has been extended over the entire area of the province to December 31, 1934, according to A. E. Dittler, game commissioner of Saskatchewan.

Beaver have been protected in the province over a period of four or five years through orders-in-council, and until the order of October 16 the season for trapping was due to open this year.

Trappers are warned to heed the new order which has extended the protective season for the next two years.

Bumper Crop Of Potatoes

Though grain production is less this year in Canada than in 1930, the crop of potatoes is a bumper one. The official preliminary estimate places the total yield for 1931 at 92,658,330 bushels from 576,200 acres, compared with 80,401,660 bushels from 571,300 acres in 1930. The average yield this year was about 160 bushels per acre. Last year the average production per acre was about 140 bushels. Potatoes are grown for the commercial market in all the provinces. The yield of other root crops is also reported this year as much higher than a year ago.

Cheerio!

When winter yawns its ugly mouth And bees stop making honey, The honking wild geese seek the South And so do folks with money.

The folks who have but little dough— Their spins of trial narrow— They stay up North amid the snow And suffer with the sparrows.

A vaudeville actor is reported by the New York Evening Post to be playing a saxophone under the weather. They say, though, you can still hear it.

Dean Inge says true fasting is eating something you don't like. Many children feel that way about spinach.

A jealous person is always in love, but it's usually more self-love than anything else.

Increased Postal Revenues

Substantial Recovery Is Noted By Postmaster General

Substantial recovery in postal revenues, with every prospect of last year's deficit being overtaken, is indicated in reports of postal business presented to Hon. Arthur Sauve, postmaster-general. Since assuming that portfolio, Mr. Sauve has applied himself industriously to the task of converting a heavy deficit into a surplus and recently expressed satisfaction with the result, which promises well for the future.

One feature of the increased postal business is the marked advance in third-class mail matter. "It conveys anything at all," declared an official, "it suggests that business houses and industrial concerns have greatly widened their advertising campaigns. Third-class mail embraces printed matter—circulars and such like. The doubling of this business in September indicates a pronounced confidence on the part of merchandising houses in the gradual betterment of conditions generally."

Lending support to this is the 15 per cent. increase in registered mail during September. Second-class mail matter has retained its position, while a drop in letter mail is more than offset by increases in other directions.

For the first three months of the fiscal year the department was \$900,000 in "the red" from last year, but the months of July and August overtook \$500,000 of that, and from now officials look for a steady upswing.

Young Jap Is Independent

Eleven-Year-Old Boy On Long Trip Shows His Mettle

Pride runs high in the Japanese and it gets its start at an early age. Young Mr. Haruo Inouye, 11-year-old Japanese boy, who travelled alone from Toronto to Vancouver via Canadian National Railways, possesses a fiery independence that rose in protest when a representative of the Traveler's Aid remarked that Haruo looked no more than eight years old.

"You're goofy," was the young Oriental's cryptic reply. Master Inouye decided to take a walk around Winnipeg before the Continental Limited steamed on west, and when the passenger agent, whose charge he was, left momentarily, he nodded in the direction of the uniformed official and said: "Tell the president not to worry. I'll be back."

Haruo's father is dead and now his guardian, with whom he lived in Toronto, has also passed beyond, so the independent little lad was on his way to join an elder brother in Vancouver. He accepted words of sympathy with a shake of his head, a flashing smile and terse, "Guess I'm fixed, but I'll get along."

Were Well Represented

Members Of Royal Family Attend Wedding Of Lady May Cambridge

The royal family was well represented at the wedding of Lady May Cambridge, niece of Queen Mary, to Capt. Henry Abel Smith, which took place at Balcombe, October 24.

Queen Mary was present at the wedding. The Prince of Wales, the Duke and Duchess of York, the Duke of Gloucester and Prince George also attended.

Princess Ingrid, of Sweden, and Princess Sybil, of Sax-Coburg-Gotha were among Lady May's bridesmaids.

The most vicious and despicable of human vices is insisting upon minding other people's business.

He who marries well marries neither his inferior nor superior.

The most trouble a woman has with her husband is in getting him.

Canada Opening
Up Roads

Saskatchewan Led In Mileage Last Year With Alberta Second

There were 394,372 miles of highway open for traffic at the end of last year, a preliminary report of highways and motor vehicles in Canada issued by the Dominion Bureau of Statistics shows.

The Province of Saskatchewan led in mileage with 154,509, and was followed by Alberta with 62,426, and Ontario with 52,270 miles of road. The highways of the two western provinces, however, were mostly unsurfaced. Quebec was fourth with 34,040 miles, Manitoba fifth with 26,152, British Columbia sixth with 22,066, and Nova Scotia seventh with 14,681 miles of highway. The district of northern Ontario, which is listed in the report separately, came next with 13,652 miles. New Brunswick, eleventh with 11,825 miles, and Prince Edward Island last with 3,650 miles of road.

There were 39,497 miles of surfaced highway in the Dominion, and Ontario led with 34,379 miles, while Quebec was second with 13,302 miles. Some 20,000 miles of highway was constructed or improved during 1930, over 4,000 miles of this being in Saskatchewan, and over 3,500 in New Brunswick.

Capital expenditures for provincial and provincially subsidized roads in 1930 was \$64,265,000 for the Dominion. \$34,502,000 of this was spent on main provincial highways, \$10,338,000 in secondary provincial highways, \$10,973,000 on county and market roads and the remainder on township and local roads. Bridges constructed during the year in Canada cost \$5,715,000, making a grand total of \$69,980,000 spent on highway work. Maintenance of all these roads and bridges cost \$23,102,000.

Embargo On Gold

Action Of Government Was Wise Course In Opinion Of Financiers

Action of the Federal Government in placing an embargo on exports of gold coin, bullion and bars was designed to prevent withdrawal of gold reserves from Canada, bankers and financial authorities are agreed.

"A wise precautionary measure designed to protect Canada's gold reserve," was the comment of Sir Thomas White, former Conservative minister of finance for Canada, and now vice-president of the Canadian Bank of Commerce.

"I presume it is to prevent individuals from buying gold here for shipment to New York, to profit by the exchange differences between the U.S. and Canadian dollars," said A. C. Phillips, general manager of the Imperial Bank of Canada. "The government has not in the order withdrawn the statutory payment of gold to nationals of Canada on demand," he said.

Favor Set Date For Easter

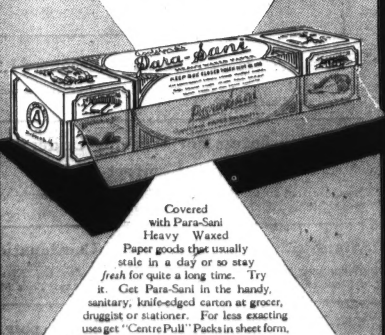

Desirable For Common Good Opinion Of Geneva Conference

The international calendar reform conference has adopted a declaration favoring the stabilization of Easter, postponed until a more favorable time the question of generally simplifying the calendar and adjourned.

The conference declared the stabilization of Easter was desirable "for the common good on account of the social and economic disadvantages of its present wandering date."

Don't cry over spilt milk; hustle around and get some more milk tickets.

Of Interest

The W.M.S. of the United Church will hold their regular monthly meeting at 8 o'clock on Tuesday, Nov. 17th at the home of Mrs. Barbour.

The gift to personal friends should suggest you. There is one gift that only you can give—Your Photograph.

Armistice Day was quietly observed in Lacombe. The usual service was held at the cenotaph, and was attended by a very large number of citizens. A feature of the service was the placing on the monument of a beautiful memorial wreath, presented by the Alberta Government, with the inscription: "In undying Remembrance of our Honoured Dead—1914-18. Recently sent by the Government of Alberta, Remembrance Day, November 11th, 1931."

The Lest We Forget Club sale of poppies on Saturday last was up to the usual record, and the ladies wish to thank all those who so generously contributed.

As usual the Lest We Forget Club Armistice Ball held last night in the Ball Room of the Adelphi Hotel was a decided success. A large number of people from town and country attended and report a wonderful evening of dancing. The spacious Ball Room was most fittingly decorated with flags to commemorate the occasion, and the ladies of the Club are to be congratulated on their good supper arrangements. The music for this dance which was supplied by the Star Orchestra was all that could be desired.

Unique Personal Photo Greeting Cards, from your own films. Plain 15c. and 25c. each. Colored in oil, 25c. each. Cameron's Studios. N5-71

The regular meeting of the Lest We Forget Club will be held in the Town Hall, on Wednesday evening, November 18, at 8 o'clock.

Mrs. Hugh Reed read a splendid paper on Canadianization at the regular meeting of the W.I., held at the home of Mrs. Roy Hoppus on Saturday afternoon. We are lax, claimed the speaker in our outward display of patriotism and our children know that the First of July mainly as the first day of vacation. Suggestions were given for developing a national spirit. Mrs. Hoppus and Mrs. Pringle were appointed to continue the serial story, and Mrs. Roberts, Mrs. French, and Mrs. Teward were appointed a committee to forward relief work for the society.

ILLUSTRATED LECTURE ON HEALTH

F. T. Cook, of the Provincial Health Department, will give an address, illustrated with Health Pictures, in the School Hall on Tuesday evening, 17th inst., at 8 p.m. This address is in connection with the Full Time Health Clinic, and will be of interest to young and old. No admission fee will be charged and everyone in town and country is invited.

ASSEMBLY DANCES

Memberships are being canvassed for the Assembly Club Dances. The rules will remain as in previous years.

Admission to resident of town and country adjacent to town by ticket only. The dates of the first two dances have been set for Friday, November 27th and New Years Eve. The other dates to be announced later.

CHURCH OF ENGLAND

The Bishop is to be here at 11 a.m. on Sunday, December 13th, for the purpose of Confirmation. If you are one of more than fifty persons in this Parish who should be confirmed, will you not undertake to be prepared to offer yourself as a Candidate on the above-mentioned date? Please see the Rector.

PETER HANSON DEAD

Peter Hansen, a highly respected farmer of this district, died suddenly on Monday morning. Deceased had been in poor health for some time, but his death came as a severe shock to his friends and relatives. The sympathy of the many friends of the family in Lacombe and District is extended to them.

CARD OF THANKS

We wish to take this opportunity of thanking our many friends and neighbors for the kindness and sympathy and beautiful floral tributes in the illness and death of our dear husband, father and brother. We also wish to extend our thanks to Dr. Hynes and the nurses for their personal kindness during his illness. Mrs. Percy Young and family, Mr. and Mrs. O. S. Young and Mr. and Mrs. M. H. Hall.

SPRING VALLEY HALL

There will be a meeting of the Spring Valley Hall Association in the Hall on Monday evening, Nov. 23, for the purpose of making changes in the Constitution.

THE STUDENTS RE-UNION

Dear Sirs: Would you kindly publish the following statement in your next issue: Regarding the "Student's Re-Union" which has been held annually for some years past, I wish to state that it will not be held under the auspices of the "Students Union", this year for the following reasons: (1) The School Board insists, and rightly so, I believe, that the "Re-Union" should be what the name implies. (2) The Student's Union executive feels that to bar all outsiders will make the "Re-Union" a failure. (3) I feel that an outside organization could and should take the responsibility and make the event a success. (4) An "Alumni Association" formed for this purpose could, I feel, serve the school and district in other ways as well and thus do honour to itself.

I wish therefore, to place my services as far as possible, at the disposal of such an association, should one be formed, to carry on with the "Re-Union" if it is desired. Might I recommend then, that a representative group of ex-students, for example the past presidents of the Student's Union who reside near

by, form themselves into a committee and that they take the responsibility of putting on this year's "Re-Union."

I would be glad to have them meet at my house at 8 p.m. Saturday, Nov. 21st.

Yours sincerely,
C. M. Lavery,
Principal of Lacombe School.

"HELL'S ANGELS"

At the Avalon This Week End In the dead of night a Zeppelin roared its way through dense clouds on a mission of death and destruction. The air Salamanders on the outskirts of London register the sounds of the whirling motors. There is an alarm. And immediately the power houses are made mute as a squadron of English planes is marshalled on the flying grounds and sent off into the skies to fight off the invader. Thus begins one of the most amazing air battles ever brought to the screen. No thrill can compare with the terrific spectacle of a lone plane zooming down into the very heart of the big ship, sending both machines up in gigantic flames. This gigantic air sensation took three years to produce and cost \$4,000,000. It is a story of patriotism and unselfish bravery on the part of the war ace.

COMING: "East is West," Nov. 19, 20, 21.
Marion Davis in "S & L," Nov. 26, 27 and 28.

SUNNYCREST NEWS

Oct. 31st, Halloween evening, was celebrated by a group from Sunnycrest, in the form of a social surprise on Mrs. F. G. Matthews, at her home at McLaurin Beach. The children retreated to one of Mr. Mathews' larger cottages, and played Halloween games and dressed in various costumes and funny faces. Theresa Barr was awarded a prize for the best costume and Forest Barr ranked second. This group of young people did not get to any of the nearby neighbors and cause any trouble. When their games were over, a lunch was served to all and pulled candy was distributed.

On Nov. 10, several families from Sunnycrest were present at the lantern lecture, at Spruceville, school, given by Rev. Riggs, showing beautiful pictures of Japan, and also some local views. An enjoyable time was reported.

Thursday, November 19, (remember the date), Mrs. J. Crocker will be the hostess for a social young people's meeting, combining Sunnycrest and Spruceville district. There will be a short program, Mr. Riggs being the speaker for the evening, assisted by Mr. Matthews and others.

Winter is coming, and these evenings, every two weeks, at different homes, are the first of a series which will enable the people both young and old to meet socially, under the auspices of several church workers, thus combining religious instruction with a social good time. Under this series we hope for more lantern lectures, skating parties and from "home to home" programs. All are cordially invited. Ladies please bring a cake or sandwiches. Also bring any helpful suggestion you have and a friend.

MEADOWBROOK NEWS

Born—to Mr. and Mrs. A. Ogilvie, a daughter.

Mr. Nathan Taylor and others have hit for the high timber to hunt big game.

Mr. J. Saue purchased an E.P. Ram at the Calgary sheep sale.

The Club meeting was held at the home of Harry Long and everyone spent a pleasant evening.

Alice Long has pulled his threshing machine in for winter.

John Saue Jr., is hauling his Father's Wheat, finding the road rather rough.

Joe Walker has returned back to Meadowbrook, after being absent for the fall threshing.

Mr. McWilliams and Mr. Moseley were in the district buying fat cattle.

Mr. and Mrs. Erskine Taylor were Lacombe visitors on Sunday.

DEATH OF W. P. YOUNG

Friends filled St. Andrew's United Church on Saturday afternoon to attend services of William Percy Young, who recently passed away in the Lacombe Hospital. Mr. Young, who was in his 44th year was born near Guelph, Ontario, and came West in 1911, at which time he settled in the Spruceville district near Lacombe. In 1919 he married Laura Irene Hall, of Guelph and to this union was born three sons. Mr. Young was a Director of the Central Alberta Gravel Pool, a member of the U.F.A., and an active worker in the United Church. He was also an enthusiastic participant in all progressive movements for community welfare. His passing cast a shadow over the entire district.

Besides his wife and three small sons, he is survived by his parents, Mr. and Mrs. Samuel Young, a sister, Mrs. Robert Keegan, of Guelph, Wilfred T. Montreal, Ross Morton, Jackson, Mich., and Ormiston S. of Lacombe.

Rev. H. D. Riggs, of Blackfalds, assisted by Rev. R. B. Layton, of

The Old Canyon Church is undergoing repairs and with the windows lights replaced, the stove set up and the sand and dust removed it is now quite comfortable. It is proposed to repair the roof temporarily. Four church seats have been placed in the church from the Church Hall at Blackfalds and with the chairs available will make the place quite comfortable. On Friday night last the first meeting was held in it that has been held for years. Fifty were present at the illustrated lecture given by Rev. H. D. Riggs, of Blackfalds, on "The Christian Church in Japan". In addition Mr. Riggs showed some views along the Red Deer river taken from his own snaps. It is the purpose to have occasional community meetings in addition to the regular Church Services which are held Sunday at 3 p.m. while the weather and roads permit. Everybody is welcome to our services.

The Institute of Religious Education for Lacombe Presbytery of the United Church of Canada will be held in the Fairview Church on Friday, Nov. 20, beginning at 4:30 p.m. This will be of interest to Superintendents, Teachers, Pastors, Leaders of Boys and Girls groups and all who are interested in the Christian Religion. The following program has been arranged:

Afternoon 4:30.
Devotions: Rev. W. B. Leard.
Word of Welcome: Rev. T. R. Davies.

Address: "What can do to develop World Friendships?" by Rev. H. D. Riggs.

Address: "The Motives and Methods of a Sunday School Teacher," by Rev. R. B. Layton.

"Catching Temperatures"; Representative from Wetaskiwin.

6:00 p.m.
Supper. Those attending will please adopt the picnic lunch plan, bringing their baskets and placing them on the general table. Local friends will provide tea and coffee.

Evening 7:00 p.m.
Worship: W. J. Moores.
7:20: Departmental Studies.

(a) Primary and Junior. Mr. Toppin, Ponoka.
(b) Teen Ages. Mrs. W. J. Moores.

(c) Superintendents and Adults: Rev. R. W. Hibbert.

8:30 Round Table Discussion.
9:00 Illustrated Lecture: "Whither Alberta?" Rev. P. W. Hibbert.

Our friends in Blackfalds district join in sincere sympathy with those who sorrow in the loss of Mr. Percy Young.

The school children will have an evening of interest next Monday night when the story of "Shipwrecked" will be told by an illustrated lecture. It is expected also that the Birds of Alberta will be shown.

United Church Services next Sunday at Blindman 11 a.m.; Canyon 3 p.m.; Blackfalds 7:30.

A Brinton Club is being organized in Blackfalds, affiliated with the Community Club.

A very good attendance were at the illustrated lecture in the "Christian Church in Japan", at Blindman School house on Monday night.

The Hedges Hand of Blindman are holding their annual bazaar in the Church Hall at Blackfalds on Saturday, at 3 p.m. This is a splendid opportunity to purchase your Christmas gifts. There will also be a concert in the evening by the talent of the Blindman Community.

Many and beautiful wreaths and flowers silently spoke of the love and system of Mrs. many friends and neighbors. The large attendance giving expression to the respect with which he was held. The community join in loving sympathy for those who sorrow in the loss of a beloved husband, father, son and brother. Interment was made in the Lacombe cemetery.

The pallbearers were: Walter Barnes, J. J. Knaus, Wm. Swanson, Edna Stout E. E. Kitching, Geo. Orme.

Here and There

Growing of glens for the Chinese market has developed into a substantial business at Waterford, Ont. Last year about 45,000 pounds of this root were produced last year, valued at \$370,000.

Fine, unusually warm, weather has favored threshing operations in the north-west of Canada during October and has raised the grade of wheat substantially, according to the crop report of the Canadian Pacific Agricultural Department.

Evaporators in the Annapolis Valley are now working full time and are consuming large quantities of low grade apples. Markets for the evaporated product are being found in Montreal and Toronto with an occasional car for the Canadian West.

The canoe continues to be popular. A recent official report shows that in the last five years in Canada building of canoes has increased by over 30 per cent. In the number of establishments making them and by 38 per cent. in the value of the output.

Canary Korndyke Alcatraz is dead. This was the world-famous Holstein cow which in 1928 created a world record of approximately 1,000 pounds of butter in 305 days. She was later purchased by the Saskatchewan Government for \$15,000 for breeding purposes.

Due to fall of the Canadian dollar and rise in the French franc, there will be no reduction in the price of wheat and flour in this country, according to L. B. Cordeau, Chairman of the Quebec Liquor Commission, interviewed aboard Canadian Pacific Express of Britain on his return recently from a tour of Europe.

THE BY-ELECTION
AT RED DEER

A majority of voters in Alberta declared against the continuance of class government at the provincial election in June 1930, but owing to an unfair voting system their vote did not prevail. The election of Red Deer constituency will be given the first opportunity since the general election to declare whether they are for or against the Brownie government. It is unfortunate that both opposition parties have candidates in the field against the government nominee. This militates against a clear-cut expression of opinion for and against occupational administration. However, there are evidences that many Liberals in the riding resent the placing of party candidate in nomination.

In the general election, the late U.E.A. member was opposed by Mr. W. E. Payne, K.C., and won by the narrow majority of eighty-eight votes. Against a new Farmer candidate without legislative experience, Mr. Payne should, win unless Liberal votes prevent. Mr. Payne is popular throughout the constituency. He is an effective speaker and exceptionally well qualified to sit in the Legislature. His election would be a considerable strength to the opposition side of the House.

So far the Brownie Government has pursued a class programme which has resulted in a steadily mounting provincial debt, and a huge annual deficit. It has neglected the encouragement of mixed farming and the development of manufacturing industries. It has subsidized farmers pools of many kinds to compete with private capital. It has spent money lavishly on state medicine and health clinics. It is time a vigorous opposition should call it to an accounting, and the election of Mr. Payne would be an important step in that direction.

A PROTECTIONIST
CHANCELLOR

Appointment of the Right Hon. Neville Chamberlain as Chancellor of the Exchequer in the British National Government will be seen by many as a strong indication of Britain's fiscal policy in the immediate future. Mr. Chamberlain is known as one of the strongest protectionists in the Old Country.

It is possible to overstate the significance of the personal views of the Chancellor, especially in a National Government which is composed of men who have agreed to sink common differences for the sake of temporary expedience, but the fact remains that the Prime Minister had

abundant material from which to select a Chancellor. Mr. Baldwin is only a mild protectionist and he has had perhaps as wide financial experience as anyone at Westminister. From 1917 to 1921 he was financial secretary of the treasury and from 1921 to 1923 Chancellor of the Exchequer. He, however, is to remain Lord President of the Council and will be second in command to Mr. MacDonald.

It is impossible to make a confident prophecy, but one cannot help associating the election of Mr. Chamberlain to the most important financial office in the country with his life-long fiscal beliefs.

RAIL VS. TRUCK PROBLEM

The rail versus truck controversy is not a problem that concerns this country and this continent alone. It became acute in England many years ago, and so far as the railways in that country are concerned they have met the situation by going into the truck and bus business on their own account. This, however, still leaves unsolved the question as between the general public and the truck and bus owners, no matter who the latter may be, as to the terms on which roads provided by the public may fairly be used for private commercial gain. The whole problem in Canada is therefore twofold; the competition between railroads, one of the systems being national property, and road vehicles; and the terms under which commercial road vehicles may justifiably make use of public highways.

Fully twenty years ago it was clearly laid down in Great Britain that over short distances and for infrequent work the road vehicle was even then able to compete with the railways, but that for long hauls and regular service the latter possessed the advantage. Since then road hauls have become longer and more regular, and the railways point out that they are obliged to acquire and maintain their own right of way, for which they pay property taxes, and which taxes are used in part to pay for and keep up roads used by their competitors. The latter, if taxed at all, have the scale levied on all road users and property owners, are not made to pay in proportion to the advantage they derive, nor in proportion to the wear and tear their heavy vehicles impose on the highway.

Bus and truck companies, however, may legitimately contend that in the course of years they have been allowed to build up an important industry which gives to the public service not provided by the railways; and in Ontario the truck owners have produced figures which, if correct, would show that the net return on the total investment is little more than bank interest on the money. This however is hard to credit; and a better argument is advanced to the effect that, especially in country districts, truck service alone enables many farmers and storekeepers to keep their head above water.

The whole presents a problem intricate and urgent, demanding thorough investigation. Its complications are added to by national ownership of a great Canadian railway system and by the circumstances that Canada has, as Sir Alexander Gibb pointed out, spent on internal transportation facilities in advance of her means and must be paid for by drafts upon the future. Another complicating circumstance is the congestion which already exists on many highways, indicating that Canada's road facilities are not anywhere ahead of her needs, even if they may be in advance of her means. Thus this problem of railways, buses and trucks must be solved is obvious.

BACK TO THE LAND

W. H. Hudson's novel, "A Crystal Age," depicts a golden age of future, in which man has found that the secret of happiness lies in simple things. He has turned his back upon the highly mechanized world and gone to the land. The book is merely a fantasy, but some of the principles it enunciates are worthy of consideration.

There is a strong back to the land movement in Canada today. It is the result of unemployment and crowding in urban districts. Actually, we in Canada do not know what

over-crowding means. Our cities, with a single exception, will one day be twice the size they are now—they are in their infancy; our ten million citizens are only the nucleus of a great nation which one day will people the Dominions; we do not know what shanty towns are—the shanties that have grown in the heart of London, Liverpool, Glasgow, New York. We do not know of these things and we have not experienced such conditions, yet Canadians today are urging a return to the land. The advice is sound. It is sound because it is essential that we maintain a balance between our urban and our rural populations. The drift to the cities has made us vulnerable to periods of world depression. In the West, of course we are vulnerable in any case because to live we must sell our wheat. But we should be less vulnerable if more of our people were engaged in primary production which ensures against hunger and want.

Canada was built by men and women who went to the land—settlers who began with no means of transportation, with rude implements, in desolation and danger. It should not be difficult for many of our citizens to turn again to the land. Furthermore, there is no necessity for them to endure the privations of their forefathers, even of a generation ago.

"Back to the land" should not mean back to privation and hardship. It should not be a statement to throw the surplus people out of our cities and leave them to sink or swim by themselves on the edge of civilization. It means—or should mean, a movement to build up an independent rural population, enjoying the benefits of modern agricultural knowledge, of a transportation system already developed, and the comforts of the present age.

Thanks to research work on experimental farms, to the car, the railway, the radio and the telephone, the land no longer means terrible hardship, isolation and loneliness. It should mean a measure of comfort for many who today are living in discomfort and hardship in our cities. And to bring about the desired consummation, the movement would have to be organized with the greatest efficiency.

BRITAIN'S CHANCE

News reports from Great Britain indicate that the resources of industrial activity which first became evident some weeks ago is increasing in extent and intensity. Orders are piling up in the woollen centres the steel and iron districts and the fisheries. Automobile manufacturers are increasing the output to phenomenal figures, and one company has declared a 10 per cent dividend.

When the Prince of Wales delivered a series of speeches upon his South American tour, he stressed the necessity for increased sales efficiency, for adaptability on the part of the British manufacturer and merchant, and to follow the old maxim, "The customer is right."

How far the Prince's advice has already been taken we cannot tell; it will be seen that this wave of activity is due to the better methods adopted by the heads of leading firms as well as to the creation of the National Government and temporary relinquishment of the gold standard.

It is impossible to tell. But one thing is certain. British manufacturers today have the chance of a lifetime. United States trade is depressed. British trade is resuming as if to a spell. If the new salesmanship and the new attitude toward foreign customers—so strongly advocated by the Prince—are developed at the present time, Britain may derive lasting benefit from activity which is attributable to a temporary set of conditions.

CARD OF THANKS

We wish to thank the people of Lacombe and surrounding districts for their kindness to us and our little Jean while she was in the Hospital, and especially the Doctors and Nurses for their tender care, and her recovery.

Mr. and Mrs. E. G. Marshall, and Family

Carrying On Its Traditions

The Bank of Montreal was founded in 1817 in order to fill the need for a commercial bank in a young and growing country.

The Bank owes its success to the fact that it has always kept pace with the growth of the communities it has served and, in every way consistent with the principles of sound banking, has constantly endeavored to be of genuine assistance to its customers.

DRAWS TWO YEARS

Milton Dixon, Edmonton taxi driver, was convicted in the criminal court late Saturday afternoon of manslaughter in connection with the death of Roy Kilpatrick, Hay Lakes school teacher, following an automobile crash on the Stony Plain Trail on August 18 last. He was immediately sentenced by Mr. Justice Boyle to serve two years in Prince Albert penitentiary. Dixon was found to have been intoxicated at the time of the accident.

ALBERTA ASSOCIATION
OF REGISTERED NURSES
Decide to Postpone Convention
Until Spring 1932

That every nurse may have the opportunity to study the Report on the Weir Survey on Nursing Education in Canada, which is now published, and which will be the basis for discussion at the next A.A.R.N. Convention, it is considered advisable by the Council of the Association to postpone the Annual Convention until the Spring of 1932.

NOW WE KNOW
WHAT'S WRONG
1931

Fifty years ago women wore hoop skirts, bustles, petticoats, corsets, cotton stockings, high buttoned shoes, ruffled cotton drawers, flannel nightgowns, puffs in their hair, did their own cooking, baking, cleaning, washing and ironing, raising big families, too busy to be sick.

Men wore whiskers, square hats, Ascot ties, red flannel underwear, big watches and chains, chopped wood for the stove, bathed once a week, drank 10 cent whiskey and 5 cent beer, rode bicycles, buggies and went in for politics, worked twelve hours a day, respected his neighbor's wife and lived to a ripe old age.

Stores burned coal oil lamps, carried everything from a needle to a plow, trusted everybody, never took inventory, placed orders for goods a year in advance and always made money.

1931
Today women wear silk stockings, short skirts, low shoes, no corsets, one ounce underwear, have bobbed hair, smoke cigarettes, paint and powder, drink cocktails, play bridge, drive cars, have pet dogs and go in for politics.

Men have high blood pressure, wear no hats and some no hair, shave their whiskers, shoot golf, bathe twice a day, drink poison, play the stock market, ride in aeroplanes, never go to bed the same day they get up, be misunderstood at home, play the ponies, work five hours a day, play ten and die young.

PERSONAL GREETING CARDS

Our Christmas Greeting Cards this year are prettier than ever, and our prices never were lower. The cards we offer in the price range from \$1.00 doz. to \$2.00 doz., can not be matched at anywhere near the price. By cutting out agents, and distributor's commissions and buying our cards direct from the manufacturers, we are enabled to sell them to you at a fraction of the cost you would have to pay agents selling Eastern printed cards. We have over sixty distinctly different designs to choose from, and we are proud of our selection this year. Place your order now while the selection is complete. Remember our prices include printing your name and address. For the Old Country Mails you should order your cards as soon as possible. Our representative will call and show you our line, or if you wish to see our cards sooner, drop in to the office, or phone 51, and we'll send them right over.

HEALTH DISTRICT NOTICE

In order that we may concentrate our clinics in the time when weather and seasonal work will allow of attendance in the rural areas, the Red Deer Fall Time Health Unit will, after November, abandon the initial "Proposed Clinic Schedules" upon which we have been working.

After the time mentioned, these clinics will be held at the times and locations in the community which appear to best serve this district.

AN OFFICIAL STATEMENT

Definite, decisive and authoritative

It has come to the attention of the Alberta Wheat Pool, that opponents are persistently repeating that those who deliver grain to Alberta Wheat Pool or Alberta Pool Elevators will be compelled to contribute a portion of the proceeds of their grain for reserves or any indebtedness in connection with 1929 Pool overpayment.

That statement is a deliberate untruth! It has been refuted time and time again, but still is being industriously circulated. The Alberta Wheat Pool herewith repeats definitely and finally, that NO DEDUCTIONS will be taken from the proceeds of deliveries of the 1931 crop to the Alberta Wheat Pool or Alberta Pool Elevators for reserves or for payment of any indebtedness in connection with 1929 Pool overpayment.

If any one advises you differently you are asked to write Head Office of Alberta Wheat Pool, Calgary.

Set Your Own Standard

Most of us have seen the cartoons and read the stories appearing under the title "Keeping up with the Joneses." We have laughed over them but at the same time exclaimed aloud, or murmured to ourselves, "What fools!"

Calmly facing, and closely diagnosing the situation which confronts thousands of us today as individuals, and all of us collectively as represented by our municipal, provincial and federal governments, must we not admit that no small part of our present financial problems are the result of conditions created by an attitude analogous to that portrayed in "Keeping up with the Joneses?"

The activeness of our present day situation may be due to other causes quite beyond our control—such as protracted drought, and consequent crop failure, leading to unemployment in urban centres—but would we not as a people, individually and collectively, have been able to withstand these shocks if, when times were prosperous and business active, we had not lived up to, and in many cases far beyond, our current income in a desperate race in which each and all were striving to keep up with somebody else?

Looking back—and it is in times like these that people are in the mood to "look back," take stock, and give heed to things that at other times when everything is forging full speed ahead they will not stop and consider—

It is not possible to see that we indulged in expenditures which our actual position did not warrant but into which we plunged because of a false vanity that we must keep up with somebody else?

The old motor car although still serviceable was not good enough because somebody else had bought a new, more up-to-date, faster one. The simple, refreshing, health-giving holiday at a nearby lake we had enjoyed for years had to give place to an expensive trip to the Coast, or a winter in California, or Florida, or some Eastern city because somebody else had followed such a course; or because somebody else sent their son or daughter to university; we must do likewise, even though our boy and girl might not have similar tastes or inclinations or aptitude for the higher degrees of learning.

And these traits of character in the individual naturally have found expression in the policies of the governments we have created. Because older established, more populous and wealthier provinces, states and countries have, through the influence of millions of dollars, created great systems of permanent, all-weather roads, why we must do the same although still young, weak and not yet wealthy as a community. Not only roads, but our schools, our public buildings, all our public services had to be the equal of those to be found anywhere else. As individuals, as electors, we demanded these things, and our governments were forced to comply with our demands or give way for those who would. We were determined to keep up with the Joneses of the whole world.

As a result the factories of the world were busy turning out not necessities alone but enormous quantities of luxuries at a fabulous cost. Stocks and bonds of these inflated industries mounted in value to dizzy heights. Everybody bought them with a view to amassing more money in order that they might buy still more luxuries. Sooner or later a collapse had to come, and the Joneses of the world and their vast army of imitators are now in difficulty.

There is a lesson all may well take to heart at this time. It is this: Rightly or wrongly—and wrongly we believe, and certainly wrong in the vast differences which do exist—wealth is unevenly divided, income and earning power vary greatly from one person to another, and at different periods of a person's life. One man's standard of living and expenditure cannot safely be accepted as sound and proper by another man. While our present distribution of wealth continues, one man's loss of income will be another man's extravagant folly.

Like everything else in this changing world, the social order is changing. Furthermore, it is the right and privilege of every man and woman to work for a change along lines he or she considers will be better, more just; with this limitation, however, that they must consider and respect the rights of others just as they expect their rights to be respected. Self-interest alone must not be our guide, because, in the final analysis, interest of self-interest alone means self-destruction. And this is true of nations just as truly as it is of individuals.

George Washington once said: "Economy makes happy homes and sound nations." Let us heed his words. Far better to follow this sage advice than to indulge in the self-burning dissatisfaction of continually trying to keep up with the Joneses.

Hard Times in Labrador

Twelve Thousand Families Are Reported To Be Facing Starvation

Unless prompt assistance is forthcoming some 12,000 families face starvation this winter in the Button Bay district of Labrador, according to a report presented to the Quebec Government by Rev. A. S. LeMay, provincial school inspector and Anglican missionary of the stricken district. This condition was brought about by the failure of the cod fishing industry this year.

The report was considered by a cabinet meeting, and the conclusion was reached that the government will which Premier L. A. Taschereau said the Quebec Government will do something as soon as possible to alleviate the situation.

"We could naturally like the Dominion authorities to go to 50-50 with us in providing this relief," he added.

School Insurance

Establishment of a Government plan of insurance for all school buildings in B.C. was recommended to the provincial government by a delegation from the executive of the B.C. School Trustees' Association. The delegation also asked extension training at provincial normal schools from one year to two years, to give a broader preparation.

British women claim to live longer than Americans, whose death rate between the ages of 25 and 64 is more than 30 per cent. higher than that in Britain.

It is useless to kick for a discount when called upon to pay the debt of nature.

Could Not Check the Summer Complaint

A Few Doses Did It

Mr. E. Coulter, 818-11th Ave. E., Calgary, Alta., writes: "Last summer I was very bad with summer complaint, and everything he would vomit, and he got so thin I became very much worried. I could not get the discharge checked, so I went to the drug store and gave me a bottle of Dr. Fowler's Extract of Wild Strawberry and told me it would stop the trouble if anything would. After I had given the boy the first few I noticed the discharge was being checked, and it was not long before he was well again."

Suspect Radium Paint Is Causing Cancer

Workers Have Been Developing Disease in Increasing Numbers

Clues to the cause of cancer in radio-activity are disclosed in the final report of the New Jersey radium clock dial painters.

Lately some of these victims have been developing cancer in increasing numbers, and the report discussed the possibility that now unrecognized sources of radio-active bombardment in the human body may cause cancer.

The dial painters have a form of radium emanations never before found in human beings. These are "alpha particles," heavy nuclei of atoms, travelling 12,000 miles a second, which in medical use of radium are screened off by the tubes enclosing the radium.

The report is made by Harrison S. Martland, M.D., of the Department of Pathology of New York City Hospital, in the American Journal of Cancer.

Of 18 deaths to date among women in the New Jersey plant, six have died of cancer. He finds a sixth cancer death due to swallowing radium paint by a woman who worked on New York and Connecticut clock factories. Four more "dial" cases suspected of developing cancer are under observation.

DRAPERIES MADE NEW

"When we found housekeeping a month ago I resumed my draperies had become creased from packing. I hung them out on a line and they were removed the creases. Then I forgot them. The result was they became wrinkled and faded. I was heartless until the happy thought struck me to dye them. I put them in a tub of water and added as I used Diamond Dyes they took gorgeous and new. I have never seen easier dyes to use than Diamond Dyes. They give the most beautiful colors—when used either for tinting or dyeing—than any other dye on the market."

Mrs. J.F.T., Montreal.

Becoming Serious Matter

Gasoline Being Stolen From Government Caches In North

Hundreds of gallons of gasoline have been stolen from government gasoline caches scattered in various parts of Manitoba, Saskatchewan, and the Northwest Territories during the past two years and investigations are underway by the R.C.M.P.

The theft of a few gallons of gas does not seem a very serious offence, but to the R.C.A.P. "planes in their travels across the bush country it may easily enough be a matter of life and death.

Expecting to find a cache of hundreds of gallons to carry them back to civilization or on to the next stopping place, pilots frequently have found the supply buildings broken into and only a few scattered tins of fuel left.

Gasoline that cost 35 cents a gallon in this city is eagerly purchased for \$2 and \$10 a gallon "north of 57."

The cost of freighting the fuel explains the difference.

Last winter a record price of \$15 a gallon was paid by a northern mining company for transporting gas to Reindeer Lake in Northern Saskatchewan.

A New Product

Making Of Wool Leather Is Closely Guarded Secret

The newest leather isn't leather at all. It is nothing more or less than wool. Wool-leather has been developed at the headquarters of the British Wool Industries Research Association in Leeds, England, and the process is a closely guarded secret. It looks like leather, wears like leather, is waterproof, and can be produced remarkably cheaply. The new wool-leather is excellent for boot uppers, furniture, motor coats, and for the upholstery of cars, buses, and railway vehicles. Not only is the advantage of it is that it is easily produced in any desired shade or colour.

Don't be without Douglas' Egyptian Liniment. Keep it handy. It relieves toothache, neuralgia, sore throat, quinsy, and croup. Invaluable for burns, sores, Barber's Itch and Ringworm.

Make Drastic Cuts

United States Naval Expenditures To Be Reduced

With strokes cutting more than \$50,000,000 from its 1933 expenditures, the United States Navy has eliminated its less important activities and has sharply curtailed many that it valued highly.

More than 3,000 civilian employees will be laid off. More than 4,000 sailors and marines will be taken from the rolls.

The Boston, Mass., and Charleston, S.C., navy yards will be closed, and will be the operating base at New Orleans, La., the naval station at Newport, Rhode Island, and the naval ammunition depot at Lake Denmark, New Jersey.

The Royal Aero Club, of England, exclusively a men's club, is to admit women who qualify and may give them full membership later.

Radio will never be wholly satisfactory to the listener until he can turn off unpopular programmes with a click that will be heard in the studio.

Lack of iron in the diet rather than lack of vitamin "G" may be the cause of pellagra.

LOST 20 LBS. FAT

Without Altering Diet

To reduce weight without any attention to diet is rather more than anyone should expect. That the Kruschen method should have succeeded in this case, is a great tribute to its effectiveness.

"When I started taking Kruschen for reducing weight, I weighed 170 lbs. That was seven months ago. I decided I was too heavy, and now I weigh 150 lbs. I have been taking Kruschen every morning, I tip the scale at 150 lbs. I have been taking Kruschen for nearly four months. I may say I feel much better. I did not diet myself in any way whatever."

Kruschen Salts do not reduce your weight like so many products claim to do. But taken regularly over a period of time—with a modified diet and gentle exercise, half a teaspoonful in a glass of hot water every morning—breakfast will take away the extra weight. It will leave you healthy, happy and restore your figure to normal weight. It's a simple time—build up health with a great increase in vigor and energy for you!

Dental Story From North

Two-Inch Teeth Extracted From Mouth Of B.C. Trapper

Two achting teeth, each one a couple of inches long and growing along the roof of his mouth, were just a cause for the mental depression of Charlie Carlson, a trapper in Telegraph Creek district of northern British Columbia. For a whole year Carlson, remote from the centres of civilization, operating in a territory where dental surgery is never mentioned let alone practised, suffered the agonies which undulled toothache alone can produce.

Trappers and natives in the Liard area believed him insane. And Carlson believed himself insane, for proper sleep had not come to him for over 12 months. Unable to exist near the settlements, the unfortunate man took to hiding in the bush, living the life of a wild thing, for he was afraid that should his condition become known he would be transported to an asylum.

Word of the unhappy woodsman's state was borne to the Liard post of the Royal Canadian Mounted Police. The officers of the Royal Mounted proceeded to the trapper's camp, and Carlson, who had befriended them on former occasions. They hunted up Carlson and he told of his sufferings, submitting to examination. The cause was made patent.

With such instruments as were at hand the officers at once set about performing a dental operation. Exposed inside the roof of Carlson's mouth were two enormous teeth. Painfully Carlson submitted himself to their extraction and when the operation was over the teeth were found to measure two inches in length.

Carlson (who is a Swede) no longer suffers from toothache, but his cheerful self, the officers report concludes.

New Appointment

Dr. C. N. Bell, Of Grain Standards Board, Has Been Superannuated

Dr. C. N. Bell, first secretary of the Winnipeg Grain Exchange, and recently the secretary of the Western Grain Standards Board and the Grain Appeals Board, having reached the age limit for civil servants, has been superannuated and is succeeded in his position by Major C. J. Drake, who has been transferred from the Canadian Government Elevators at Fort William.

Dr. Drake is well known in Winnipeg, having held a similar position in the Manitoba Legislature for a number of years.

Proud Of Record

In the province of Vermland, Sweden, 1947 farmers have received diplomas testifying to the long hereditary tenure of their lands. The record seems to be held by a family at Eda, which has farmed its lands since 1470, another family at Norda Enten, who has held a farm since 1480. The Swedish farmers take great pride in their family records and the new diplomas are highly prized.

The British bull dog continues to hold what he has in spite of adverse conditions and a set-back or two, and he will be found sitting on top of the world in due course of time.

"When your wife starts to talk does she know when to stop?"

"I don't know yet; we've only been married nine years."

The chemical industry is one of the most important in Poland.

Selected

The sending of "flowers by telegraph" has for some years been a great convenience to many people, although they have been obliged largely to leave the selection of the bouquet or plant to the florist. But, according to information given out at the recent convention of the Florida Telegraph Delivery Association, television will soon enable the customer actually to see his selection of blooms and supervise their arrangement before delivery is made. Perhaps the time may come when a customer can get a whiff of their fragrance.—Christian Science Monitor.

Crowds Hear Einstein

A huge crowd battled with police to hear Professor Albert Einstein, father of relativity, outline a new scientific theory, even though the theory concerned such a highly technical subject as the use of vectors in three-dimensional space, something understandable only by very competent mathematicians.

Canada's Good Country

Times may be "hard" in Canada in some lines, but generally speaking, this country can hold its head up with any of them when it comes to business integrity and solidity. Naturally, we cannot hope to be rid of those who are always tripping over their lower lip, but those, fortunately, are in the minority. But how that minority can sometimes broadcast.

A man's reputation is made as much by what he leaves unsaid as by what he says.

Drought has done considerable damage to the flax crop in Italy.

Achieved Great Success

Lord Byng Restored Public Confidence In Scotland Yard

Canadians will read with warm satisfaction the tribute paid to Lord Byng by the London Times on his relinquishing the office of Commissioner of the Metropolitan Police Force. The great popularity which his lordship gained with the soldiers under his command on the battlefields of Europe was shared by the citizens of this country when he became Governor-General of the Dominion. He was liked for his personal qualities as much as he was admired for his ability and strength of character.

When he was appointed to Scotland Yard there were some who wondered whether military qualifications were the right credentials for a police chief. Unfortunately Lord Byng has suffered much from ill-health during his tenure of office, but he has succeeded in achieving a great success in the position. Certain happenings had marred the wonderful record of British Metropolitan Police Department, and it was to no surprise that the great commander was called. He undertook the task with his usual thoroughness, however, with the result, according to the Times, that "Scotland Yard has gained nothing less than complete restoration of public confidence in the police force and the police force has regained confidence in itself. The good which Lord Byng has done will live after him."

May he be spared to long enjoy his well-earned retirement! Has shown himself in peace and war a true commander and a great administrator.—Quebec Chronicle-Telegraph.

Persian Balm imparts a rare charm and distinction to the woman who uses it. Fragrant as a flower, delectably cool to the skin, it always results in complexion delightfully young and lovely. Indispensable to every dainty woman. As a powder base for oily-textured skins or as a beautifying lotion, it is unrivalled. It also stimulates the skin. Recommended also to soften and make the hands flawlessly white.

Recipes For This Week

(By Betty Barclay)

CORNEB BEEF LOAF

1 package lean-flavoured gelatin.
1 cup boiling water.
1 cup meat stock or 1 cup water plus 4 bouillon cubes or 4 teaspoons beef extract.

1 tablespoon Worcestershire sauce.
4 teaspoon paprika.
3 cups cooked corned beef, ground.
1 cup melted butter, graded.
1 tablespoon prepared mustard.

Dissolve gelatin in boiling water. Add meat stock, Worcestershire sauce, and paprika. Chill. When slightly thickened, fold in corned beef, butter, and mustard. Turn into loaf pan. Chill until firm. Unmould. Serve in slices on crisp lettuce. Garnish with sliced hard-cooked eggs or tomato wedges. Serves 10.

Quince Honey

6 large quinces.
4 large lemons.
Juice 2 lemons.
Sugar.

3 pints boiling water.
Pare the quinces and apples, and grate them. Measure the pulp and use the juice as much sugar as pulp. Four the boiling water over the sugar and stir it until it is almost dissolved. Add the fruit pulp and lemon juice, and cook the mixture until it is clear. Pour it into clean, hot glass jars and cover with paraffin. It will have the consistency and appearance of honey.

Telegraphing Flowers

Television May Enable Purchaser To Actually See The Flowers

The sending of "flowers by telegraph" has for some years been a great convenience to many people, although they have been obliged largely to leave the selection of the bouquet or plant to the florist. But, according to information given out at the recent convention of the Florida Telegraph Delivery Association, television will soon enable the customer actually to see his selection of blooms and supervise their arrangement before delivery is made. Perhaps the time may come when a customer can get a whiff of their fragrance.—Christian Science Monitor.

Crowds Hear Einstein

A huge crowd battled with police to hear Professor Albert Einstein, father of relativity, outline a new scientific theory, even though the theory concerned such a highly technical subject as the use of vectors in three-dimensional space, something understandable only by very competent mathematicians.

Canada's Good Country

Mass Purchasing Needed

Production Has No Value Unless Goods Can Be Bought

Just as we had found out about all we needed to know about mass production, the whole thing was spoiled by our not knowing enough about mass purchasing! We believed so sincerely that he was the real benefactor of the race who made two blades of grass to grow where formerly there grew but one that we lost our heads completely as to the other real benefactors. Production is all very well, but there is little value in products that meet no real want. The problem of production was solved by the wise old teacher who warned his scholars that when they have food and clothing and shelter that he should be content.

Mass production had made it very difficult for some folk to face any emergency. We have heard of folks, for instance, who, year in and year out, did nothing but fill a grease cup or move a lever. Now there are no grease cups to fill and there is no served in moving the levers. But cup filler and lever mover are now hungry.

World's Poultry Congress

Preparations Being Made To Entertain Delegates To Rome

"Convention"

Delegates to the Fifth World's Poultry Congress being held in Rome, Italy, in 1933, are assured an exceptional opportunity for visiting. Not only will they "see Rome" during Congress week but they will be guests of the Government of Italy for an eight-day tour of the country, during which visits will be made to such interesting and historic spots as Leghorn, Florence, Pisa, Forlino, Ancona, Bologna, Ravenna, Milan, Como, and Venice. Canadian delegates will return by way of Switzerland, Germany, Belgium and France en route to Great Britain. Going routes being considered include via Paris and the South of France, via Gibraltar and Old Spain, via the Riviera, and by steamer direct to Naples with a day at Palermo. F. C. Efford, Dominion Poultry Husbandman, is again giving an active lead to Canadian participation and will be glad to hear from anyone interested in attending the Rome Congress.

Ready-Made Medicine.

You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable; for scalds, burns, bruises, sprains it is unsurpassed; white for cuts, sores and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

Will Ask Peat Survey

The Alberta Government will make a request to the Dominion Government that Dr. A. Anrep, peat moss specialist of the Federal Department of Mines, be permitted to make an extensive survey of peat moss deposits in Alberta next year. The step is being taken with a view to accumulating the commercial quantities of Alberta peat moss for insulating and agricultural purposes.

Blooming varieties of begonia like plenty of sunshine, whereas varieties with spotted leaves thrive in north windows.

Weighting 54 pounds and with scarlet fins and many red scales, a king fish caught at Lowestoft, England, was sold for \$5.

Prosperity was taken for a ride, and now it's walking slowly back.

Czechoslovakia's tourist club now has 80,000 members.

People who are too old to learn have outlived their usefulness.

Owners of radio sets in Portugal are to be taxed \$2.25 a year.

Every Effort Being Made To Secure Return Cargoes

Every available service at the disposal of the Canadian National Railway is being exercised in the promotion of the Hudson Bay route with a view to securing return traffic. Facilities are planned to accommodate commodities other than grain.

These facts were learned in an interview with Sir Henry Thornton, C.M.G., president of the Canadian National Railway.

Regular service on the Hudson Bay railroad will open simultaneously with the opening of the harbor about July 1. In the meantime a regular train service, the same as operated last winter, will be scheduled.

"Who was Samson?" The scholarship aspirant bit his pen, looked at the ceiling for inspiration, and wrote: "Samson was a strong man appointed to entertain the Philistines. He brought the house down."

Wheighing 54 pounds and with scarlet fins and many red scales, a king fish caught at Lowestoft, England, was sold for \$5.

Prosperity was taken for a ride, and now it's walking slowly back.

Czechoslovakia's tourist club now has 80,000 members.

People who are too old to learn have outlived their usefulness.

Owners of radio sets in Portugal are to be taxed \$2.25 a year.

"FATIGUE?"

I just postpone it!"

"No, I don't have 'nerves.' You can't have them, and hold this sort of position. My head used to throb around three o'clock, and certain days, of course, were worse than others."

"Then I learned to rely on Aspirin."

The sure cure for any headache is rest. But sometimes we must postpone it. That's when Aspirin saves the day. Two tablets, and the nagging pain is gone until you are home. And once you are comfortable the pain seldom returns.

Keep Aspirin handy. Don't put it away, or put off taking it. Fighting a headache to finish the day may be heroic, but it is also a little foolish. So is sacrificing a night's sleep because you've an annoying cold, or irritated throat, or grumbling tooth, neuralgia, neuritis. These tablets always relieve, and they're not depress the heart, and may be taken freely. That is medical opinion. It is a fact established by the last twenty years of medical practice.

The only caution to be observed is when you are buying Aspirin. Don't take a substitute because it will not act the same. Aspirin is made in Canada.

Made in Canada

New Chamoisette Gloves 65c. pair

With fancy embroidered cuffs. We have a nice assortment of shades: in sand, brown, grey, Arab, mocha, vanity, birch. All sizes.

Special—All Wool Tricotine \$1.50 yard

A. M. CAMPBELL'S**Town Planning Banquet**

"The future of Canada depends upon the character of her people and not on her wealth," stated Dr. McCall, Principal of Alberta College, in a stirring address delivered before an audience of nearly 200 people at Lacombe on Thursday evening, Nov. 11th. Dr. McCall was the main speaker at a Board of Trade banquet at which a large delegation of members of the Edmonton Chamber of Commerce were guests, and which followed a convention of Town Planning Commissioners.

Thirty representatives from various localities of Central Alberta were present at this conference which was called for the purpose of exchanging views, discussing work already accomplished, and drawing up plans for the future. Resolutions were passed as follows:

1 That Councils of Municipalities be encouraged to pass zoning by-laws restricting all that area within a two mile zone surrounding a zoned urban area to an Agricultural classification or use.

2 That this Conference record its appreciation of the action of one of the large Grain Elevator Companies of Western Canada in preparing to improve and beautify several hundred elevator sites; and recommends that other Elevator Companies and Railway companies concerned be so advised and that every effort be made to encourage similar action on the part of other elevator companies.

3 That the Councils of affected communities be urged to take such steps as may from time to time encourage the moving of outlying dwellings and thus reduce the cost of installing utilities and in the case of buildings or houses in the more settled portions of the community that are not in keeping with adjoining development or that may constitute a fire hazard to urge their relocation in districts suited to their use.

4 That this Conference does heartily endorse the recent findings of the Pacific Northwest Association of Town Planning Commissioners at its fourth annual conference in Vancouver, B.C. to the effect that "The progress made in Alberta has been made possible by a Central Board of Control with jurisdiction over the whole province".

And that this Conference does further recommend that the activities of the Alberta Provincial Town and Rural Planning Advisory Board be encouraged as a most desirable economic measure.

5 That this Conference Record its hearty appreciation of the splendid work accomplished by Mr. Horace Seymour and his staff in carrying

out the Town Planning and beautifying the cities, towns and villages of the Province, under the Town Planning Act.

Attending the conference were: Mr. Horace Seymour, Director of Town Planning; W. E. Zinkan, Assistant, Edmonton; from Wetaskiwin, J. E. Fraser, City Clerk, Col. G. Baker, Sec. Board of Trade, Ald. Jas. Scott, Chairman of Public Works; from Red Deer, W. J. Botterill, President Board of Trade, E. S. Hogg, Sheriff, Ald. C. J. Hunter, and F. W. Galbraith of the "Advocate"; from Stettler, W. Sharpe, E. Easton, President Board of Trade, Geo. Ball, Postmaster and Jas Adams; from Sylvan Lake, Mayor Bergstrom, Secretary McCaskill, F. L. Appleton, Town Planning Commissioner, Commissioner Walker, Councillor Colpitts, and H. H. Jamieson; from Castor, Mayor Barnes, Br. McPherson, President Board of Trade and Messrs. Tucker, Danville, Spratt and Lund; from Beavertown, Mayor J. R. Stukke, Councillor J. M. McCutcheon, Sec. B. A. MacDonald; from Municipality of Lorne, Bentley, Reeve A. B. Haastad, H. A. Brownlow, Bentley, C. F. Dameron, Bentley, Mayor J. H. Bentley and Mr. Saunders; from Ferlie Valley, Ponoka, Reeve Auten and Secretary MacDonald; from Bowden, Reeve J. C. Sheffield and O. W. Thorne; Lacombe, Mayor G. T. Jackson, Secretary L. P. Minkler, G. E. DeLong, Town Planning Commissioner, and Rev. R. B. Layton.

Following a delicious banquet prepared by the Ladies' Guild of the United Church, E. F. McGarvey, of the Kiwanis Club led the guests in community singing, one number sung by the delegates from the Edmonton Chamber of Commerce proving very popular with the gathering.

After a cordial welcome extended by Mayor G. T. Jackson, all visitors were introduced, V. A. Porter, President of the Edmonton Chamber of Commerce leading off with his delegation. H. L. Seymour announced that fifty municipalities are now interested in town planning.

By courtesy of the Edmonton Journal Dr. McCall's address was broadcast through C.J.C.A., the broadcast being personally supervised by Mr. Rice, Journal announcer. Mr. McCall's address was a ringing call to every citizen to follow the Golden Rule in all relationships of life. The world is better today because of the unselfish spirit of Service Clubs, and it is through their contribution to the welfare of the community or the nation that men will be remembered not through their wealth.

John Muir Secretary, followed with a few remarks about the hard times. He remembers four depressions, but still Canada shows more remarkable progress and deeper quickening of National life because of the faith of her people in their nation.

Delegation from Edmonton consisted of: V. A. Porter, President of Chamber of Commerce, Frank Turley, first Vice-President; R. V. MacCoshan, third Vice-President, John Blue, Secretary; Milton Martin, Chairman of Town Planning Commission, James Walker, Manager of Bank of Commerce; R. W. Pearson, Chairman of National Trust; John Budd, Manager of Ashdown's; E. Chown, Dom. Sup. C.P.R.; E. C. Nixon, Manager C.P.R. Express; E. F. McGarvey, Song Leader; Joe Barrett, Secretary Y.M.C.A.; Horace Seymour, Director Town Planning; W. E. Zinkan, Assistant; Rev. F. S. McCall, and Mr. Rice, of C.J.C.A.

At the banquet Mrs. H. E. Wilson, on behalf of the Lord Lascelles Chapter of the I.O.D.E. presented the Scholarship prizes to the students obtaining highest marks in the final examinations. These winning prizes were: Grade VIII, Katherine Allin; Grade IX, Betty Gilmour; Grade X, Maxine Fitzpatrick; Grade XI, Grace Vickers.

DECLINE OF THE BOOSTER

A profound result of the depression which is drawing to a close may be that it has shown up the booster who had taken such a hold of this continent—and perhaps to a lesser extent—of Europe. We had come to rely too easily upon the glib statements of professional optimists—statements which touched our vanity, our pride of country and city, which tickled us because they were the sort of remarks that warmed our too inflammable hearts. Two or three years ago a man who suggested that all was not right with the world was looked upon as a grouch. We had forgotten that "Words are the daughters of Earth, but things are the sons of Heaven."

The Ottawa Citizen, commenting on the upturn in the economic outlook, remarks in a current editorial: "Today, there is a definite rise in public confidence. What is the cause of it? It is due, we believe, to the fact that the statesmen and the business leaders, as already suggested, have profoundly changed their outlook. They have ceased to issue reassuring but empty statements to the effect that all was well if the public would only be patient, and in place of this mode of thought have substituted a facing of realities. In other words, they have dropped the vain posture of crying for the inflated moon of 1929 prosperity and have begun to look forward instead of backwards."

The Citizen traces the influence of this change in attitude in Canada, the United States, Great Britain, on the European continent and in international relations. It points out

that at least the leaders are facing the problems of today in terms of the future, rather than issuing vain prophecies.

It is beginning to appear as if the depression has constituted a great step forward in our civilization. It will, if we do not forget.

RED DEER VOTES ON MONDAY

As the last days of campaigning begins in the Red Deer constituency where four candidates are seeking the votes of the electors who will go to poll on Monday, November 16, to select a successor to the late G. W. Smith, farmer member of the Alberta legislature for Red Deer, a tension is felt throughout the whole district as the four parties rally to the causes of their men and seek the public's support.

James A. Bannerman, besides being a well-known old-timer of the Red Deer region has served the Government for many years as townstead inspector, and in this capacity has met thousands of farmers. He is popular and with sturdy backing from all the important Liberal speakers in the Province, his supporters maintain that his chances for election are daily growing better. It is also believed that those who vote the U.F.A. ticket will likely give the Liberal their second choice vote. Second place ballots are going to count heavily in this contest.

The U.F.A. candidate Ray L. Gaetz is another who will make a strong appeal to the electors. Not only has Mr. Gaetz the assurance of a heavy backing from the Farmer party but many of the townspeople of different political beliefs will mark their ballots for him by way of honoring his useful life in this community and as an expression of their esteem.

W. E. Payne, K.C., is the Conservative bidder for the position and a very strong bidder withal. Mr. Payne has been defeated in two previous elections but this time his party is out for success. Some predicted that the election issue will boil down to a fight between the Liberal and Conservative parties. His party is working day and night in his behalf and his cause carried far and wide by personal canvassers, as well as direct public appeals from platforms throughout the district. The fact that Mr. Payne is a successful lawyer of Red Deer, known throughout all Alberta as one of the ablest men of his profession, is another factor.

The Communist Party have nominated F. G. Bray, of Calgary. While Mr. Bray is not well-known around Red Deer, his party has some strength in the Western portion of the riding—his nomination being made at an Eckville meeting. While it is not felt that Mr. Bray has a

DAVID HAY Men's Wear Lacombe
Cleaning, Pressing and Repairing, Promptly Done.

serious chance of succeeding in the contest, his entry is understood to be a ruse of the Communist Party showing their power in this district. Mr. Bray is a convincing speaker and is ably helped by other leaders in the Communist Party of Canada. Entering the last week of their campaign, the four candidates are concentrating on Red Deer itself during the final days of their drives. The by-election is expected to bring out the heaviest vote in years and the whole Province is showing interest in the contest.
